GTA Race Series

Georgia Tennessee Alabama Sports Class Race Series

The GTA Race Series is a semiformal competition; a group of friends that get together 6-8 weekends a year and fly/race cross-country. We crew for one another, fly at several sites, and learn racing skills from one another (several pilots fly in Regional, National & International competitions), enjoy great camaraderie, and have a blast together. Newcomers & Visitors are always Welcome. Don't be intimidated!

The letters GTA stand for Georgia Tennessee & Alabama. This is where *most* of our pilots are from as well as where we hold most of our races. Everyone is always welcome to join us regardless where they may be from.

Races begin with a pilot's brief. We explain the contest rules & procedures and emphasize safety. We also discuss race strategies & cross country technique.

We race with 2 Classes: *A* Class for Experienced racers & *B* Class for Novice racers.

The GTA is based on Sports Class Regional Rules. This means you can use any type of glider. The handicap system helps equalize the differences in aircraft performance. You do NOT need the latest machine or avionics to compete.
