

Name _____

Weekly Math Challenge

Jessica collected shells on the beach during her vacation and recorded the number she found each day.

On Monday she collected 25, on Tuesday she picked up 15, and on Wednesday she found 24. On Thursday she again found 15 and on Friday she collected 31 shells. What is the range, mode, median, and mean of her data?

Show how you used a picture, chart, or symbols to help you find the answer.

Range: _____ Mode: _____ Median: _____ Mean: _____

Write several sentences explaining how you found your answers:

Parent Signature: _____
