

Name _____

Weekly Math Challenge

Bob Bender needs to buy fertilizer and fencing for his vegetable garden. His square garden measures 10 feet on each side. The directions say that each bag of fertilizer will cover 50 square feet of soil. How many bags of fertilizer will he need to buy? How many feet of fencing should he buy?

Show how you used a picture, chart, or symbols to help you find the answer.

Bags of Fertilizer _____

Feet of Fencing _____

Write several sentences explaining how you found your answers:

Parent Signature: _____
