

### **Homework Guidelines**

Take pride in your work. Your work is a reflection of you. Everything you do, do it to the best of your ability. Here are guidelines for all future homework.

1. Name, date, period must be on left-hand side.
2. Assignment title must be on top line. If there are multiple pages or assignments label each part on the line before giving the answers.
3. All answers must be in complete sentences, unless you are instructed to do otherwise. Write your answers with the thought that I do not know the question.
4. Answers to For Study and Discussion Questions in the literature book should always include support from the text. If you quote something put page number in parenthesis ie (p.22). Be specific in your answers, name people and places. General answers will not receive full credit.
5. All words must be spelled correctly and sentence structure must be strictly adhered to.
6. **WRITING MUST BE NEAT AND READABLE.** Remember your writing is a reflection of you. Make it a good one.
7. All homework must be done in pen.
8. Typed homework is acceptable. Typed homework must be submitted in the same format as written work.
9. Always refer to your Writer's Inc book for questions on grammar, style and the use of MLA.
