Note on Roster: In order to make this roster, you must QNI at least five (5) times. If your name is not on this list, it means that even if you have been previously on the roster, you were not heard from in June. Therefore, your name and call has been omitted. The NJN and Njsn Rosters are elsewhere in this issue. Let's hear you!!!

NOTE on kBulletin: If this issue looks like it is the collective work of a dozen sex-crazed Boy Scouts, you're not far from the truth! We in NJ have undergone a major upheaval since the May Bulletin reached you. WB2RKK, Bill, has resigned as SCM/NNJ shortly after his overwhelming reelection. W2YPZ, Charles, has chosen not to run again for SCM/SNJ, due to failing health. WB2LCV, Dick, has resigned as Manager of NJN, due to personal reasons. Various people have helped to put together this bulletin, during this period. We apologize. WB2CST, Fred is now NJN/Mgr. W2ZZZ, Lou, is SCM/NNJ. WB2GTE, Ray, is SCM/SNJ. Congratulations to all, and best wishes for success.....73

S N J ' s new SQM, a profile.

Raymond F Clancy
222 East Knight Avenue
Collingswood NJ 08108

WB2GTE (ex- 1BKS, W3BGO)

Retired in 1970 after 45 years of working around big transmitters for Westinghouse and RCA. Worked on WWV's 30KW rig and numerous BC 50 KW jobs. Helped set up RCA Global at Rocky Pt, Riverhead and Broad St. Worked on FIRST TV 1 KW TRANSMITTER IN 1929!!!!!! Has a nice old RCA rig on the Ham bands for AM RTTY and CW which runs about a watt a pound input and is kinda heavy - - like half a ton! He also has some excellent receiving equipment by RCA and Hammarlund. So we Pineys seem to have acquired a dyed in the wool type SQM. Lots of luck Ray.

N-N J ' s new SQM

Lou Amerosa

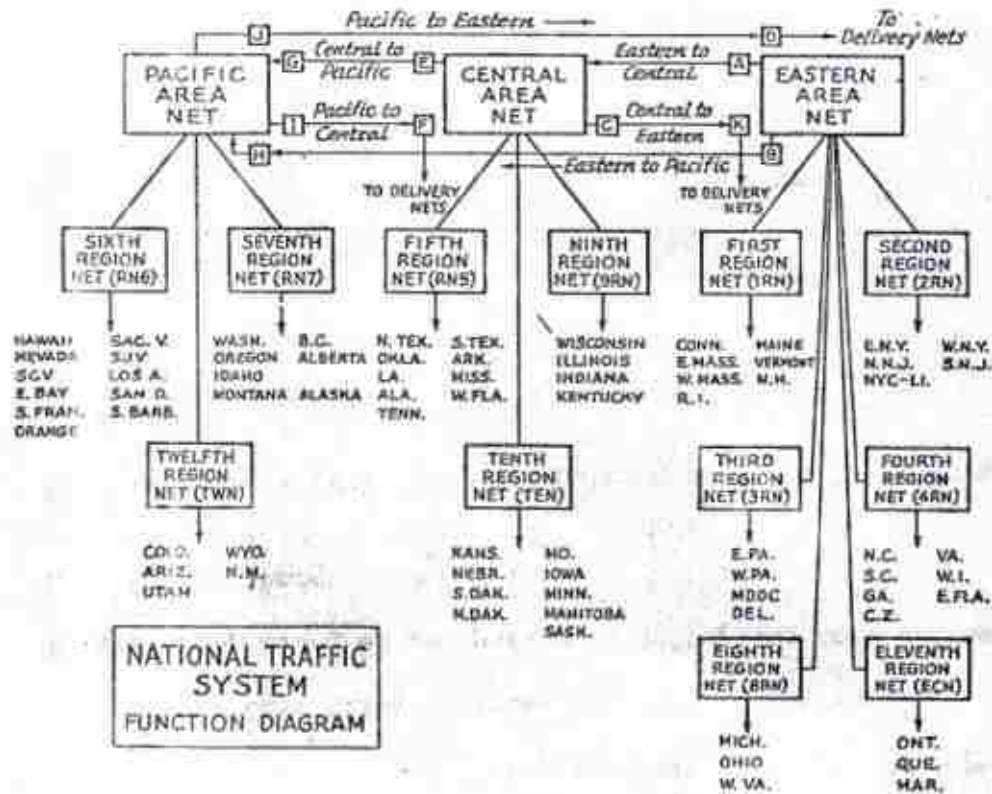

W2ZZ

I hope I can get some profile details from Lou for a forthcoming bulletin. But I wanted to make the announcement here anyway and to wish Lou the best also.

Excitement is high around here about the news that Technicians will have access to the novice bands and Novices will be renewable. We should all dust off our old novice rigs and get them on the market for these folks preferably with the NJSN dial markings prominently darkened. Lots of Techs on the local repeater have indicated quite an interest in TRAFFIC and I'm not keeping any secrets about NJ's N E T S.....

Please excuse the choppy appearance of this bulletin. Me thinks it is a horse designed by a committee - It has been delayed by circumstances of change and is a first effort on the part of WB2LCW. Most of the contents speak for themselves. Below is an educational item which you probably have briefly examined previously. I have found it of great value in preparing traffic for my TX task on EAN.

How NTS Operates

Any how it has a place on my operating desk in helping me to determine questionable routings. For example: does Tennessee traffic go to 4RN or CAN? What net gets traffic addressed to Manitoba?

Youve probably heard AB2CST in there pitching lately. Fred has picked up the slots you see in the function roster. Note that there are a few additional slots without regulars - Your voluntary interest in them is solicited. Additionally, if on the air you note an absent slottee dont hesitate to take the bull by the horns and volunteer on the spot. Whether it be an NCS or 2RN function. If your reward is not in the satisfaction of doing the task, then it will be in heaven!

Hey!!! P I C N I C Time

Shark River Park (same as last year.)

July 31 1976 (Rain date August 7)

Monitor 3950 Khz at 9 & 10 AM for information
if the Weather is questionable.

I spect that the festivities will extend from about noon to
six or so. I hope the soft ball aficionados amongst you
bring their gear....

The management will provide H dogs and H burgers
Condiments
Beer and Soda
Paper plates utensils and napery.

(Please bring whatelse you need yourselves.)

Please bring along \$3 per person to defray the cost of the above.

Kids (11 and under) F R E E ! ! !

This year NJN NJPN & NJSN will attempt to crowd the park in a
combination effort

See you there.

1976 NJN PICNIC UPDATE!!!!!!

The annual NJN Picnic will be held on Saturday, July 31, at Shark River Park near Asbury Park. This is where the picnic has been held the last few years and has proven a popular location. Shark River Park is just off the Garden State Parkway, and a map is included on the back. Please note this date does not conflict with any contests or neighboring net picnics.

As usual, the NJN members invite members of all New Jersey nets to join us, as well as neighboring section net members. It is the perfect opportunity to meet the "faces behind the keys", perhaps for the first time. In the past, we have always had a good turnout from all three New Jersey section nets as well as a delegation from the neighboring section of NLI, and we hope this year will be no exception.

The picnic will begin around 11:00 a.m. Hot dogs, hamburgers, soda and beer will be supplied as usual, and a small fee, in the order of a couple of dollars, will be collected at the picnic to pay for the food.

Activities, other than eating, drinking, and ragchewing, will include a water balloon throwing contest and a prize for the winner, a door prize, and the traditional softball game (will WB2AEH try for his third year in a row as winning pitcher? Will WA2SRQ recover from last year's batting slump and hit the ball over WA2DSA instead of to him?) Be sure to bring a baseball glove if you have one, and a Frisbee might come in handy as well.

The weather the last few years has been terrific, but, in the event of questionable weather, monitor 3695 and 3950 in the morning on the hours for picnic status reports.

NJN MEMBERS:

Congrats to W2DIZ for his upgrading...and to WB2ANI for his change of call. W2WIW hopes to enjoy the rest of the summer in Italy (W2WIW/II?) as long as he finds someone to fill in for a while as net manager...Anyone else going to be around for the rest of the summer and is willing to collect the net reports for August, please notify Chris...This would be most helpful...Hope W1ZEM is able to get his rig on the air soon...

Frankly was looking forward to the NJN picnic this year but will not be able to attend...I wish all of you fun and 73's 'til I return, arrivederci! Make it easy on NJN guys.....Ciao.....

NOTE RE:RE:

Due to the depressed nature of our treasury and the rising costs for producing and mailing this bulletin, designed for our active members and for those who have supported us financially through contributions, this will be the last large-scale mailing. If your name (call) appears below, we want to hear you on one of the nets or see your call on our contributor's list. We're sorry, but the harsh realities of life are upon us. Besides, some of our paying/active members are wondering/questioning the validity of a mailing list of about 175 names when we hear only 50 or so stations from month to month. THE LIST:

W1CASY, W2AZZ, W2BAN, W2BLV, W2BSU, W1DOJ, W2DVU, W2ELW, W3EML, W2EPI, W2ERZ, K1EEN, W2FIT, W2FLF, W2GGR, W2HSD, K2JOC, W2JJK/2, W2KIP, W2LZN, W2LFX, W2MIV, W2NBD/2, W2NHJ, W2NHZ, W2NKD, W2ORS, W2OSQ, W2PYM, W2QHN, W2QNH, W2QNT, W2RF, W2RJJ, K2RXB, K2RXQ, W2RZP, W2SFX, W2SOF, W2TJO, W2TRK, W2UDC, W2UDI, W2UNI, W2VFT, W2VFR, W2YPZ, W2ZRC, W2ZGR, W2ZUP, W2FWY, W2LST, W2VDV, W2YDC, W2BOV, K2JJC, W2JSP, W1LXB, K3MDG, W2YHJ.....

Without counting exactly, these calls represent almost 60 names of folks rarely heard on our nets. That comes out to about \$93.60/yr. on postage alone to carry you...we don't mind if you are there, but help us out in one way or another...Justice, justice, you shall seek!!!!

NJN FUNCTION ROSTER:

WANTED: SOMEONE TO BUILD ME AN ACCU-KEYER OR SELL ME ONE ALREADY BUILT! I NEED A KEYER OF DECENT QUALITY TO CONTINUE MY CW CAREER AS I HAVE GIVEN UP TRYING TO USE A STRAIGHT KEY! ANY HELP????PLEASE CONTACT W2VFT ON THE NET OR WRITE ME REGARDING DETAILS...I WILL ALSO NEED A PADDLE....THANKS.....

PERSONAL COMPUTING

CONSUMER TRADE FAIR - ATLANTIC CITY, NJ - AUG. 28, 29

Inexpensive computers for the home? For the small businessman? For industrial machine control? For educational purposes? The ultimate toy? The answer to all the above is YES - YES - YES - YES Read on -

One of the latest advances in the ever growing field of electronics is the micro or personal computer. Unlike their country cousins, the pocket calculator, these relatively small and inexpensive units can perform many of the functions that a few years ago took a room full of components, costing hundreds of thousands of dollars.

The rapid development of these devices and the quick entry into the market by a number of new firms, has brought the price down to the point where a complete personal computer can be purchased and placed in operation for as little as \$245., of course one can add a few extras to make his system more versatile and the cost will rise accordingly, perhaps to a few thousand dollars.

Those already owning personal computers have employed them in a variety of ways, from making up mailing lists to handling the bookkeeping and inventory control for small businesses in their area. Schools are purchasing personal computers for teaching and learning aids for their students. Hobbyists are using them to control their Ham Radio stations and for playing exotic games such as Star Trek (a three dimensional space war game) and chess. Checkers and tic-tac-toe can also be played.

Personal computers can be designed by the owner with specific functions in mind. Plug-in modules make changing functions easy, thereby making an individual computer as simple or complex as necessary. One other factor that contributes to the low cost of personal computers is the availability of kits. Many owners actually build their own units from manufacturer supplied kits.

PERSONAL COMPUTING '76 will be a national gathering of manufacturers and users to discuss and exhibit microcomputers, and is open to the public. The weekend show is sponsored by the Southern Counties Amateur Radio Association of New Jersey, K2BR and is being held in the AIR-CONDITIONED convention facilities of the Shelburne Hotel/Motel, Michigan Ave. on the famous Atlantic City Boardwalk. Experts in their fields will conduct many varied seminars and demonstrations on all aspects of personal computing. For the beginner, for the student, for the businessman, and even for the advanced computer experts.

Bring your family because Atlantic City is a family resort, with many interesting things to do. There is the famous Beach and Boardwalk, shopping, Night Clubs, Bowling, fishing, amusements, and many other exciting places to visit nearby. Those of you coming from the Midwest or West Coast should plan to visit Bicentennial Philadelphia and see the exhibits in our nation's first capital, only a few hours away by car or bus.
