Notes: NJN and NJPN active membership lists were combined to save space and prevent us from having to check two lists for a name or QTH. The single letter after the town indicates whether the person checks into NJN (C), NJPN (P), or both (nothing). Any discrepancies should be reported to WB2LCC as soon as possible.

JOIN THE FUN

It would take a month to contact each of you about this so please consider this a personal invitation to everyone who does not have a regular function to get involved in keeping NJN operating. Let me know if you can fill a regular function. If you can't or are not sure please try by volunteering to substitute once in a while. Hpe cu at confab.

. 73, W2ZEP

RAMBLINGS

First, a word about reps. When I became NJPN manager on October 1, many 2RN slots were unfilled. Many more had reps that never or rarely showed. After cleaning house I found only three dependables on the old list! Hardly believable for a net of this size, but nevertheless true. At that point I began begging, just about every night, for additional people to help out. Before long I added several new people to the 2rn function roster. But, alas, not enough to bring us up to full load. It is hard to believe that out of over 40 active members we can not find enough people to man 15 slots. So, for those of you that continue to check in without helping with the work, why not re-evaluate your situation and see if you can spare a few extra minutes a week to fill a slot. And for those of you who are reading this and who don't even check in, why not try NJPN, you'll like it I'm sure! Anyone who cares to donate some time can contact me at any hour of the day or night, on the air, by phone, mail, semaphore or whatever mode you can think of. Just do it. Now!

Second, this bulletin was mailed to 120 people, of whom only 65 are on the active membership lists. The other 55 were kept on either due to the fact that they have contributed or, more likely, they were kept on out of the goodness of our hearts. I would like to invite these people to check in more often, or at least keep us informed of what you are doing by mail. We have no objection to keeping interested people on the mailing list, it's just that one often wonders how many of these are read and how many are discarded. End of complaints.

Now we can start the positive news! The NJN-NJPN combined CONFAB will be held Saturday, December 17 starting at 11:00AM and lasting until about 2:00PM. Among topics for discussion will be net operation, particularly during emergency situations, membership growth, lack of rep volunteers, and the net bulletin (how often, what should be included, etc.). Anybody with additional topics that need discussion should contact W2ZEP or WB2LCC as soon as possible.

It is that time of year again when NJN members must choose a new manager. Ed, W2ZEP, has been filling in these past few months out of the kindness of his heart, but he has expressed a desire to turn the reins over to a new person sometime soon. Those of you active in NJN should consider who you would like for manager now, as elections will take place at the confab.

That about wraps it up for this time. The next bulletin will be produced in a couple of months, I hope. Until then, 73 es cu at the confab.
