

MegaMillions (56-number game)

As of 07/11/09 there has been 423 MegaMillions drawings

There's a 1 in 20 chance that all five of the MegaMillions numbers will be even numbers.

There's a 1 in 12 chance that all five of the MegaMillions numbers will be odd numbers

There's only a 1 in 74,898 chance that all five of the MegaMillions numbers will be consecutive numbers.

Four or five consecutive numbers has never happened.

Three consecutive numbers have occurred 6 times

There is a 1 in 120 chance that the five numbered balls used for the drawing (not including the bonus ball number) will come out in ascending numerical order.

The same holds true for descending numerical order.
